

INTRODUCING

"The collection was built for customers who want the high-quality leather Italy is known for, but don't want to pay the 'Italian level' prices. We will introduce this vast new collection at High Point Market, with a launch party at our showroom on October 22 at 4 PM," said Frederik Winther, Vice President of Sales. High Point Market:
October 22 – 26, 2016
Bellini Showroom:
IHFC H521 & H520

August 2016 - Concord, ON - Manufacturer of luxury case goods, upholstery, and lighting for the home, **Bellini Modern Living** introduces a substantial new upholstery collection of high-end Italian design and quality at attainable price points within their **Bellini Italian Home** division.

Made in Italy by skilled artisans, these contemporary power motion designs are upholstered in high quality European hides, tanned and treated in Italy using time-tested processes that ensure long-lasting beauty, softness, and strength. The embossed and aniline leathers are paired with a choice of sleek wenge or brushed steel accents for a luxurious, modern look. To address the market's ever-increasing desire for power motion seating, the collection integrates reclining mechanisms utilizing the latest technology. Eco-friendly polyurethane filling is blended with feathers for optimal comfort, while metal springs ensure ideal resistance and long-term use. Four leather grade options are available, each priced competitively against mid-range imported upholstery from Asia.

MOTION SEATERS

Each style is available in a variety of sizes and configurations, including sofas, loveseats, chairs, two and three-piece sectionals, chaise, recliners, and ottomans.

Adjustable headrests

SOFIA

Using power reclining motion technology, the Sofia headrest adjusts at the push of a button, for a high-back or low-back look and feel.

Adjustable seat depth

ROXANNE

Roxanne's back cushions move forward and backward, allowing for a customized seat depth.

MOTION SEATERS

Each style is available in a variety of sizes and configurations, including sofas, loveseats, chairs, two and three-piece sectionals, chaise, recliners, and ottomans.

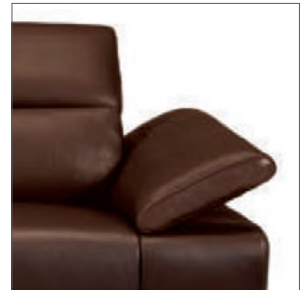

Adjustable headrests
